

AUTO LANE DRAW

OBJECTIVES

Auto Lane Draw is a feature within the HCRA database that allows associations to manage Lane Drawing virtually. Clubs / Coaches have the ability to choose lane preferences per event by regatta.

The algorithm chosen to facilitate this function is "Random Choice" whereby a club is chosen at random for their lane preference and then a second club [and so forth] until all lanes per event have been assigned. A key is assigned to the regatta at its creation and is unchangeable. If for any reason the draw needs to be undone, and redrawn (without any changes being made) the result will be exactly the same.

WHAT TO DO...

1. Select the "Year" and "Regatta"

The year and regatta will default to the current year and regatta. Double check to see they are correct.

2. Select "Events" to be entered

Select events by checking or unchecking the checkboxes per event (row). By default, the events from the previous regatta will carry over as most times clubs will enter the same events. For events selected, the preference columns will open up. All unselected events will be grayed out.

3. "Last Result"

Displays the results from the last crew that entered into that event. [This field does not effect OHCRA as we use Random Choice.]

4. Choose Lane Preferences

Select your desired lane choice from the "TOP" (1st), 2nd, 3rd...to the "LAST" choice. As you edit your choices, numbers will swap places making sure there are no duplicates. (i.e. if you change your TOP choice from "1" to "2", the column that previously held the "2" will become "1". DO NOT LEAVE BLANKS!

TIDE CHART

Data is pulled from the NOAA site for the nearest NOAA buoy to the race site. (i.e. Windward Oahu - Mokuolo'e / Leeward Oahu / Honolulu)

Tide data should be used to determine lane preferences. (i.e. if the tide is low in the am for a regatta at Keehi, then your TOP choice for the first few events may be lane 2 and not lane 1.

THINGS TO NOTE

- The current OHCRA policy is for lanes to be entered by Noon and pulled at 6pm on the Wednesday prior to the regatta.
- It is suggested that you print out a copy of your selection for your records. (right-click and print)
- Lane sheets are available immediately after the draw is complete on HCRAPaddler.com and click "Regatta Results" on the top left navigation panel.
- Should issues arise, please contact registration@ohcra.com
